WORK STUDENT MATERIAL ENGINEERING

(M/F/D)

Novaled GmbH is a research and development company and the world's leading supplier of special chemicals for the application in organic light emitting diodes (OLEDs). Novaled's products can be found in most AMOLED displays, including smartphones, TVs and smartwatches. Novaled's main shareholder is Samsung SDI.

YOUR ROLE:

As Work Student you will support our Material Engineering Group during their daily work:

- Support testing and evaluation of thermal properties of organic materials
- Sample preparation and documentation of processing parameters
- Collection of analytical measurement data and reporting of results

YOUR PROFILE:

- Study of chemistry, physics or material science at least in the 5th semester
- Proactive and team oriented personality with knowledge of data handling (e.g. Excel, Origin)
- Hands-on experience in lab work is beneficial
- Independent working style
- Good communication skills

Time frame and working hours:

The position is available for at least 6 months from February 2020. The amount of hours is approximately 12 h/ week. Please indicate your availability in your application.

Besides an exciting and varied job in an international environment, you will benefit from joint team events and information sessions. You will also receive free cold and hot drinks.
